E. WOLFF & SONS' newly-invented **CRETA LEVIS**, or **PERMANENT DRAWING CHALKS**, in color, in every variety of colour.—**E. WOLFF & SONS** beg to state that they have, by the introduction of great improvements in their **CRETA LEVIS**, enabled it to be used for permanent drawing, and to be equal to water-colour drawings, without the use of water, or of any other fluid; the various colours blending together with perfect harmony, beauty, and richness, and can be rubbed off as frequently as the artist pleases, giving a very decided effect, and freedom from Nature, the great advantage resulting from the adoption of the **CRETA LEVIS** must be obvious, as, without the use of water, paper, the drawing can be made on any surface, and with perfect truthfulness. Chalk cannot be surpassed, and by their composition may be carried any distance without the slightest inconvenience, thus superseding every other method in general use. As the new method is so simple, and the results so perfect, that all other crayons, they will neither rub off nor suffer injury by contact with the usual contents of a portfolio. The **CRETA LEVIS**, unlike the indelible or wax crayons, WILL NOT BE SOILED BY THE HANDS OF THE ARTIST.
